The M/L is not willing to pay half the cost of the latter building. What is proposed to be constructed is an Isolation Ward in the Compound of the present Dist Hospital in Tumkur No hospital can be considered as Complete without such a ward as it is often found necessary to isolate or segregate certain types of patients either for observation or for treatment. It is not intended to be a 'Camp' for infectious Diseases. In the event of an epidemic of Plague, Cholira or Small pox it is necessary to have temporary huts with or a Camp preferably outside the town, perhaps on the Kunigal Road as suggested by the Municipal Council

Sir,

Sub - Construction of an Isolation ward in the compound of the new District Hospital building at Tumkur

With reference to your letter No L 10735 dated 30-1-1947 on the above subject, I have the honour to state that I am not in favour of the proposal to construct the Isolation ward outside the compound of the District Hospital as it involves the employment of additional and exclusive nursing and menial staff and difficulty in supervising the work by the District Medical Officer or his assistant The compound of the new General Hospital is large enough to build in a corner, a small Isolation or Observation ward

As regards the moiety of cost to be paid out of the State Funds I invite reference to my letter No G C 313-3 dated 3-5-1946 in which I have stated that no provision is made in the Medical Budget for meeting the expenditure for the construction of buildings and that the amount required for the Isolation ward may be met from the funds of the Public Works Department

I have the honour to be,
Sir,
Your most obedient servant,

Senior Surgeon
